TECHNICAL INFORMATION

Küsnacht, February 2004

FOTECHEM 2002 Gel and 2002 Concentrate

Hazard-free, flow-support coupled up with degreaser for direct emulsion coating.

FOTECHEM 2002 is a ready-to-use gel to be applied by brush or coating trough.

FOTECHEM 2002 is the liquid concentrate of FOTECHEM 2002 that can be diluted 1:10 with water and be applied by brush or spray.

1. Description

- This product can be used on all types of meshes as a pre-treatment.
- It combines in one step the perfect degreasing and mesh treatment to support the flow-out of the emulsion.
- The result is a pin-hole and fish-eye-free coating.
- Both items are slightly acidous.

2. Application

- Apply from both sides; little foam will develop.
- Let stand for 1 – 2 minutes.
- Rinse well with water.

3. Smell

Odourless.

4. Packaging

Available in 1 ltr and 5 ltr cans.

5. Safety and Health

- For industrial use only, keep away from children.
- For eye protection wear safety glasses.
- A Safety Data Sheet is available on request.

6. Storing

1 year
