FOTECOAT 1975 DIR-AD

Dual-cure photo-polymer emulsion for most ink systems; aquamarine.

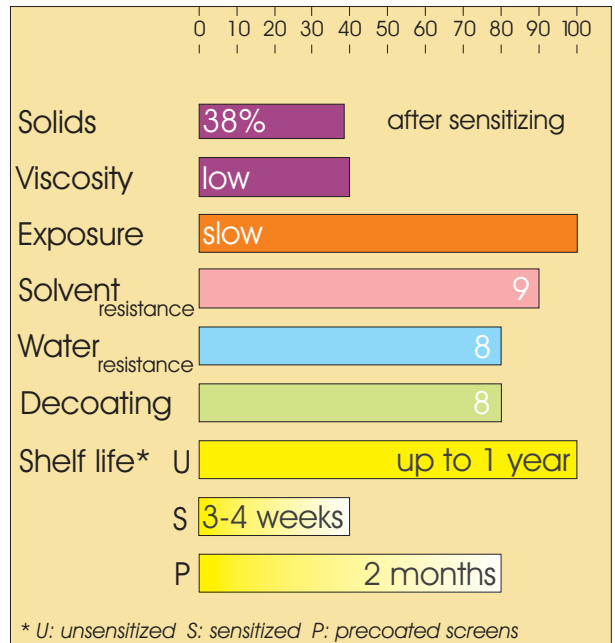

"Universal", DIR-AD (direct addition) sensitizing system. No warning on the label.

General Description:

- Sensitizer is supplied in air-tight, insulated sachets for long shelf-life.
- For direct addition of diazo powder, without water.
- Post-exposure to improve through-curing. Chemical hardening not recommended.
- High contrast.
- Ideal viscosity for most mesh numbers.
- Extended exposure latitude; relatively long exposure time.
