

**THE TOTAL LINE OF
SCREEN STENCIL
MAKING PRODUCTS**

FOTECOAT 1838 SOLO

*Presensitized photopolymer
screen emulsion, reinforced
by DIR-AD diazo;
water resistant;
magenta.*

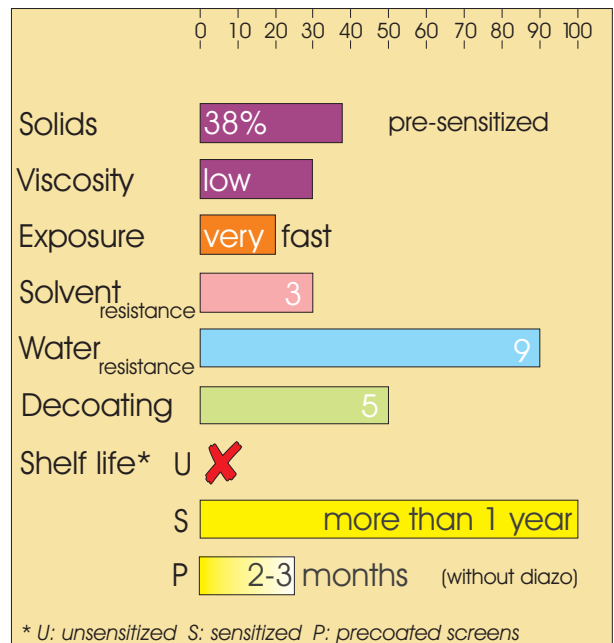

*No mixing, no degassing.
No warning on the label.*

General Description:

- Ready-to-coat, one component screen emulsion for textile printing.
- Adding voluntarily diazo (with-out water) allows longer runs and improves water resistance.
- Wash-out however becomes more difficult.
- Low viscosity for manual and machine coating.
- Magenta colour allows excellent see-through and use of white or dyed mesh.
