

**THE TOTAL LINE OF
SCREEN STENCIL
MAKING PRODUCTS**

FOTECOAT 1837 SOLO

*Presensitized photopolymer
screen emulsion for thick
stencils, water resistant;
rosa.*

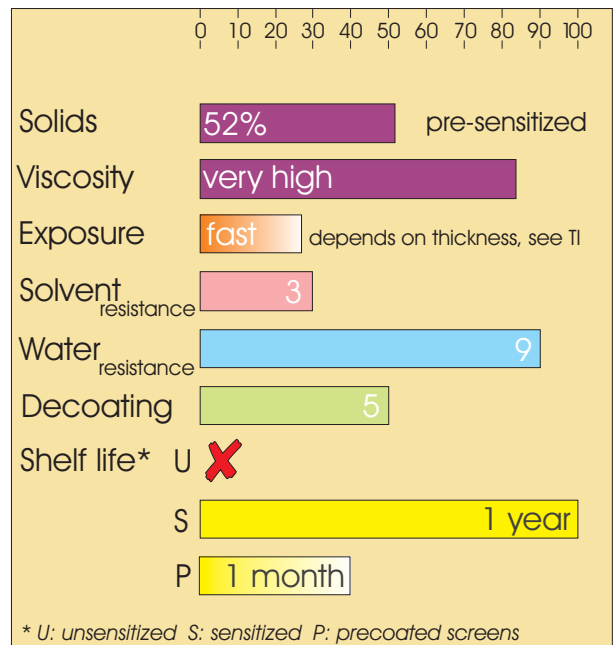

*No mixing, no degassing.
No warning on the label.*

General Description:

- Ready-to-coat, one component screen emulsion.
- **1837** is somewhat easier to coat than **1835**. Can be used for printing all types of aqueous inks and for plastisols as long as the stencil is not cleaned with aggressive solvent .
- Thick stencils are achieved by coating wet in wet up to 20 strokes from the squeegee side. Consult Tech. Information.
- Fast exposure time.
Patience needed for stencil wash-out.
